

Looking for your dream garden escape?

A BBQ grill inside a wooden cabin? What a silly idea we hear you say! However, 1,000's of happy customers throughout the UK have been enjoying socialising with friends and family in their BBQ huts for over 20 years.

These quirky looking cabins originate from Scandinavia and offer a cosy setting for use all year round. They seat between 10 and 21 people depending on the cabin size you choose. We even have a cabin with a bar inside so you can cook and drink to your heart's content.

WHY HAVE A BBQ CABIN?

A BBQ cabin will become the heart and soul of your garden, but with so many options it can be hard to know what to look for and where to turn. Here are some of the key features which come as standard with every cabin:

- ✓ All of our cabins are manufactured by us, here in the UK
- ✓ Trademarked sloping wall design for extra space and comfort
- ✓ Built using 45mm slow grown Scandinavian redwood
- ✓ High quality, adjustable central BBQ unit inside
- ✓ Fully opening, double glazed windows
- √ 10 year manufacturer's guarantee
- ✓ 10% deposit required balance payable on installation
- ✓ All of our cabins are installed by our trained fitting teams

7m² BBQ Cabin

The 7m² cabin may be the smallest cabin that we offer but don't let it's compact footprint fool you. Taking full advantage of our unique sloping wall shape, the cabin is far more spacious than you would expect. This cabin is big enough for family get-togethers and is perfect for romantic evenings, just steps from home.

MAKE IT YOUR OWN

We have a few different optional extras that you can add to your cabin to make it your own and enhance your BBQ experience.

Bench Cushions

Why not opt for some bench cusions to add even more comfort to your cabin? Our cushions are handmade in the UK and add the perfect finish to your BBQ hut.

from £670

LED Lights

We also offer LED lights with a remote control (*electricity supply not included*). They create a great atmosphere in the cabin, and you can change the colours to suit the mood!

from £450

Table Top

We know you might not always use your BBQ whilst in your cabin, so our table top is perfect for turning your grill into more usable surface space for nibbles and drinks!

£300

Tall Spark Guard

Our cabins are all supplied with our standard spark guard to minimise the risk of hot embers escaping. We also offer this optional Tall Spark Guard should you need it.

from £300

HOW DOES IT LOOK?

The shape of the base will match the shape of your cabin. It will either be hexagonal or octagonal in shape depending on the size of your cabin, allowing it to blend seamlessly with the aesthetic of the building.

Hexagonal base (for 7m² & 10m²)

From £750

Octagonal base (for 14m² & 17m²)

From £1,200

Composite posts

HOW IS IT CONSTRUCTED?

Composite resin posts are concreted into the ground and attached to the base frame, providing solid support to your cabin.

The posts can be cut to the desired length allowing us to accommodate sloping ground.

70mm

The frame and joists are made from 150mm x 45mm pressure treated (tanalised) construction grade timber.

HOW DOES IT WORK?

The composite posts attach to the timber base frame and penetrate the ground. The posts are individually encased in concrete to lock them into position and provide years of support.

The posts allow the base frame to be slightly elevated above the ground which provides constant air flow underneath the cabin. This feeds oxygen to the BBQ unit allowing it to operate properly.

WILL IT WORK IN MY GARDEN?

Our base system is the most versitile option available and is suitable for a range of ground conditions.

One advantage to our base system is that we can easily work with sloping ground without the need to excavate or flatten the ground itself. The base frame is levelled using the posts. Some steps and additional base cladding may be required.

If you have an old concrete base or patio area that is covering part of the cabin location, we can often accommodate this with our base system. Some posts rest on the existing hardstanding, whilst the remainder are concreted into the ground as normal.

ARE THERE ANY OTHER BASE OPTIONS?

You can utilise your existing patio or other hardstanding area providing it is solid and flat. If you are using an existing base we will need to add a sub-frame to provide the required air-flow underneath the cabin.

If you would prefer to install a new concrete base we will be happy to provide you with our vented concrete base guide free of charge.

Rutland Garden Village is nestled in the heart of Britain's smallest county. We're family run, independent & pride ourselves on quality, individuality & customer experience.

Our Garden Village is so much more than plants. There's independent outlets, from home interiors to country clothing, a Cakery and Restaurant, & in 2023 a new farm shop & deli along with a treatment spa & other retailers. Our new range of UK made BBQ Cabins are the latest addition.

Radish makes food fresh everyday & the Cakery is filled with fresh cakes including Gluten Free, Dairy Free & Vegan.

Wellness & mental wellbeing is at the core of our business. We are creating a relaxing garden for you to sit & enjoy the surroundings. With regular events taking place around the village, it's always a good time to visit!
